1. **APPROVAL OF MINUTES** - Meeting of March 10, 2003

2. **REVIEW AND DISCUSSION OF PROPOSED DRAFT GOALS**

Another key component in providing General Plan direction is to identify a set of goals, that together with a vision, will serve as the foundation for preparing subsequent, more detailed objectives, policies and land use proposals for the General Plan. A set of initial draft goals developed through the subcommittees was provided with the Agenda package for the 3/10 meeting. Staff has since prepared the attached table which comprehensively organizes those inputs under each of the major "themes", and includes some comments and suggested edits largely to avoid redundancies, and improve organization.

Staff will elaborate on the purpose of goals, including their relationship to the vision, what they do, and how they will be used. Staff will facilitate Committee discussion to review and refine the proposed goals. Staff will then prepare a draft combined Vision and Goals Report for review at the next meeting. That Report will then be finalized and presented to the Planning Commission and City Council.

3. **PROCESS FOR DEVELOPING PRELIMINARY LAND USE & TRANSPORTATION ALTERNATIVES**

The next step in the overall General Plan process is to develop preliminary land use & transportation alternatives based on the Vision & Goals, and other issues and inputs. These preliminary alternatives developed through the Steering Committee will be presented for community input and direction at the Town Hall meeting set for June 21. Staff will present a work program for preparing these alternatives between now and the Town Hall meeting. The program includes two half-day workshops for the Steering Committee in May. The Committee should provide any input and direction.

4. **PUBLIC COMMENT**

5. **ADJOURNMENT** – to the meeting of April 14, 2003 at 6:00p.m.
